- ✓ Problem Solving
- ✓ Team Collaboration
- ✓ Communication
- ✓ Leadership
- ✓ Adaptability
- ✓ Time Management

PROFESSIONAL SUMMARY

Creative and technically proficient Junior Web Developer and Prompt Engineer with practical experience building full-stack web applications, interactive games, and AI-powered solutions. Proficient across multiple programming languages and modern development tools. Passionate about leveraging AI to accelerate development workflows and deliver user-centric digital experiences.

EDUCATION

Diploma in Computer Engineering

2022 – 2025

Government Polytechnic / MSBTE — Maharashtra, India
3rd Year Student | Current CGPA: X.X / 10.0

2021 – 2022

PROJECTS

Portfolio Website [HTML | CSS | JavaScript]

- Designed a fully responsive personal portfolio showcasing skills and projects.
- Implemented smooth scroll animations and mobile-first design principles.

Youth Fitness Gym Website [HTML | CSS | JavaScript]

- Built a multi-page gym business website with class schedules and contact forms.
- Ensured cross-browser compatibility and SEO-friendly semantic markup.

Library Management System [Python | SQL | File Handling]

- Developed a console-based LMS to manage books, members, and issue records.
- Implemented CRUD operations with persistent SQL/file-based storage.

Interactive Puzzle Game [JavaScript | HTML | CSS]

- Created a tile-shuffle puzzle game with timer, move counter, and difficulty levels.

Calculator & Tic-Tac-Toe Game [HTML | CSS | JavaScript]

- Built a functional scientific calculator with keyboard support.
- Developed a two-player Tic-Tac-Toe game with win-detection logic.
